

Business Aviation Services

Skyservice Business Aviation Services provides a full range of services from its modern Fixed Base Operation (FBO) facilities in Montreal and Toronto. Both bases offer full line service and complete aircraft maintenance and support for today’s most popular business aircraft. The personal and friendly service and technical expertise have earned Skyservice industry recognition as Canada’s top FBO. Our aircraft maintenance capabilities are recognized with approvals by a number of original equipment manufacturers.

Skyservice has a full range of aircraft available for business charter. Services include providing professional flight crews and arranging catering, conference rooms, hotel accommodations, and ground transportation anywhere in the world.

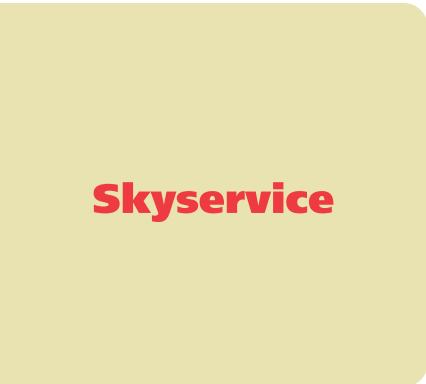

Skyservice has the people, services and infrastructure to offer corporate and private clients all levels of aircraft management from complete turnkey operations to specific support services for a single airplane or fleet.

OUR
COMPANY
OVERVIEW

Skyservice Airlines

Founded in 1986, **Skyservice** is a dynamic Canadian aviation enterprise servicing the needs of Canadian travellers and the business aviation community. Skyservice operates Canada’s premier Commercial Charter Airline, top Fixed Based Operations and a leading worldwide Air Ambulance service.

Since its inception, Skyservice has maintained a high standard for quality, service and reliability within the Canadian aviation industry.

*People and values – inseparable assets – drive Skyservice’s dedication to Quality.
Safety, Respect, Commitment and Efficiency are the core values that guide Skyservice people every day
and help build their reputation as leaders in aviation services.*

Skyservice Airlines is the number one requested airline for the charter industry with customers that include tour operators, corporations, professional sport teams governments relief agencies, and travel incentive companies. The airline is widely recognized for its quality service, the reliability of its scheduling and the versatility of its charter operations.

Skyservice Airlines employs approximately 1000 employees and operates more than 20 commercial aircraft to destinations in Canada, the United States, Caribbean, Mexico and Europe. Skyservice Airlines’ modern fleet includes Airbus A330’s, A320’s and A319’s.

Skyservice Lifeguard

Since 1989, **Skyservice Lifeguard** has become the carrier of choice for medical transport for many of the world’s leading travel health insurance companies as well as an increasing number of individuals.

With bases in Toronto and Montreal, the fleet of mobile intensive care jets stands ready to respond on a moment’s notice. Each aircraft is ready with its medical staff and equipment to repatriate and transport ill or injured patients anywhere in the world.
